

Tuesday, March 30, 2010

OBJECTIVES:

To review basic documentation requirements regardless of documentation system in use

To discuss documentation requirements and strategies to implement in light of the Final Rule

To practice and demonstrate how to write short term and long term goals that are measurable, attainable, and patient focused

To discuss and demonstrate how documentation needs to support FIM and the overall interdisciplinary team process

To review basic documentation requirements regardless of documentation system in use

To discuss documentation requirements and strategies to implement in light of the Final Rule

To practice and demonstrate how to write short term and long term goals that are measurable, attainable, and patient focused

To discuss and demonstrate how documentation needs to support FIM and the overall interdisciplinary team process

ONE DAY ONLY!!!

Documentation Essentials...Meeting the Requirements for Inpatient Rehabilitation Facilities (IRFS)

This one day class will address the complex and often difficult documentation needs confronted by inpatient rehabilitation facilities. The Final Rule has increased the need for interdisciplinary documentation, tying all the loose ends together from the preadmission screen and evaluation, the physician history and physical, each team members assessment and discharge planning. This course will also address the documentation that justifies FIM scoring and documentation that focuses on discharge to community...getting the patient home.

Instructor: Lisa Pervin RN, CRRN, PhD

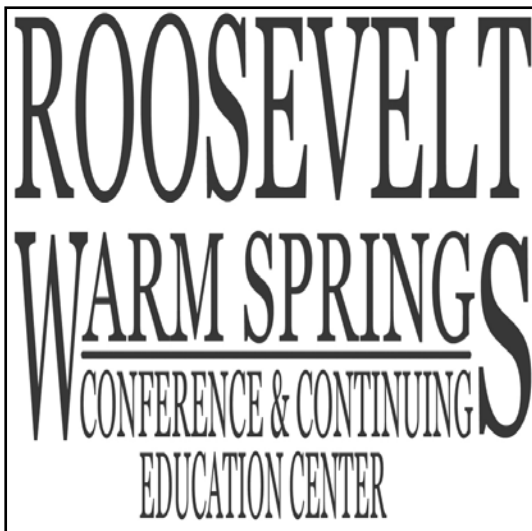

(Registration for this one day course is on the back side of the CRRN brochure.) Price for this course only is \$99.00. The three day CRRN course is priced at \$299.00. Combine both courses and receive a \$50.00 discount. That is a total of \$349.00 for all 4 days! The deadline for both courses is March 23, 2010.

Tuesday, March 30, 2010

Schedule:

8:00am	Registration
8:30-9:30	Review and overview of the basics of nursing documentation ...the good, the bad, and that which lands in court
9:30-10:30	What makes rehabilitation nursing documentation different?
